Dear Resident:

The Housing Authority of Cook County (HACC) is constantly looking at ways to improve the quality of life for residents and wants to ensure that you and your family members are aware of all of the resources our Human Services team has to offer.

Our Human Services department is a one stop destination to meet the needs for your educational, training and employment goals. If you or anybody in your family is interested in taking advantage of these tremendous opportunities (college scholarships, job skills/career training, employment opportunities), Human Services is here for you.

To get started, please send an email to humanservices1@thehacc.org specifying which of these areas you are interested in.

Additionally, if you or a family member currently work part time or are unemployed, we can also recommend programs - potentially life changing - that will improve your skill levels. It has been proven that advanced training can increase your earning potential substantially, and we have the resources to assist you in achieving that goal.

We also want to connect you or a member of your family to education opportunities, so that you can obtain financial assistance and pursue a degree or a certificate from the educational institution best suited for you.

Affordable Housing can be a platform to success. Please take advantage of what we have to offer. Email humanservices1@thehacc.org and tell us what you are interested in. You and your family could be on a pathway to a new and rewarding future.

Sincerely,

Richard J. Monocchio
Executive Director
